DETAILED ACTION

1. This Office Action is in response to applicant's submission filed July 3, 2003. Currently claims 1-40 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-25, drawn to evaluating travel accommodations, classified in class 705, subclass 7.
 - II. Claims 26-40, drawn to storing information about an end user, classified in class 705, subclass 10.

The inventions are distinct, each from the other because:

4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I is system/method for evaluating travel accommodations (e.g. using reviewer's start recommendations); Invention II is a system/method for storing information about a user which is used to send unsolicited marketing communications based on the store user information/profile. Invention I has separate utility in providing users with access to hotel's reviewer's rating. Invention II has separate utility such as sending unsolicited marketing messages (coupons) to users based on their profile/stored information. While the marketing messages in invention II "may be" coupled to hotel accommodation scores/ratings one

can use hotel accommodation scores without the need to received unsolicited marketing messages. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Groups I or II is required for Groups I or II restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
